“As a young child I had an injury which resulted in a large scar to my chin area, growing up I was told there wasn't much that could be done as it was on a delicate area of the face. About a year ago I started to consider having a natural lip enhancement, I went to see Frances Furlong of Perfect Skin, whilst there I asked her about my scar as over the years I had heard about lasers helping scars. Frances discussed my treatment options and warned me not to go for lasers as my skin type is quite dark and it's possible that my skin could react negatively to laser therapy. I was advised to use the same type of filler I had in my lips to treat my scar also. As you can see I'm delighted with my natural results, my confidence has soared”
