“

I inherited my weak top lip from my mum, when I looked at my face in my early twenties it really started to bug me! I have quite large facial features and always thought my lips should have been slightly bigger so my face looked balanced. I certainly did not want over filled extremely fake

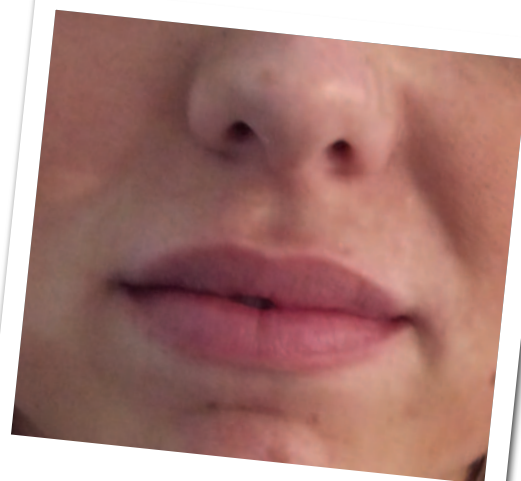

looking lips, just better suited for my face shape. My friend has been a client of Frances Furlong of Perfect Skin for 5 years now and she came highly recommended. At the consultation I was able to take time to explain how I wanted my lips, my concerns of still wanting my lips to feel and look natural. Frances explained that in order to achieve the look I desired it would not happen on the first treatment, she advised a smaller amount of product over three sessions, this way I was more in control of the volume and plumping effect, also they wouldn't feel hard and lumpy which is a problem when you have loads put in at the first treatment. Over the time of my sessions my lips looked and felt more plump and the pillow look which I desired was achieved. Thank you Perfect Skin I am over the moon...
